3.000 kg per ha

### AGEING

20 months in French oak barrels

### BOTTLING DATE

August 2024

### PRODUCTION

10,024 bottles and 317 magnums

Demanding and challenging vintage due to long dry periods and high summer temperatures. The year began with low rainfall. Despite a wetter than usual March, the first quarter of 2022 recorded a water deficit. Spring was unstable, with alternating hot and cool days. After an early start to the summer, the temperatures reached their highest levels in July, with heatwaves exceeding 40°C and tropical nights. This situation led to vegetative stoppages due to lack of water in some vineyards, bringing forward the harvest to 1 September and lower overall yields. The harvest was optimal due to the lack of humidity, with very healthy grapes of excellent concentration.

Magnificent aromatic expression, with an overflowing fruit, in its right ripeness, and balsamic notes. Enveloping tannins and precise texture complete an incisive and profound wine.
